FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

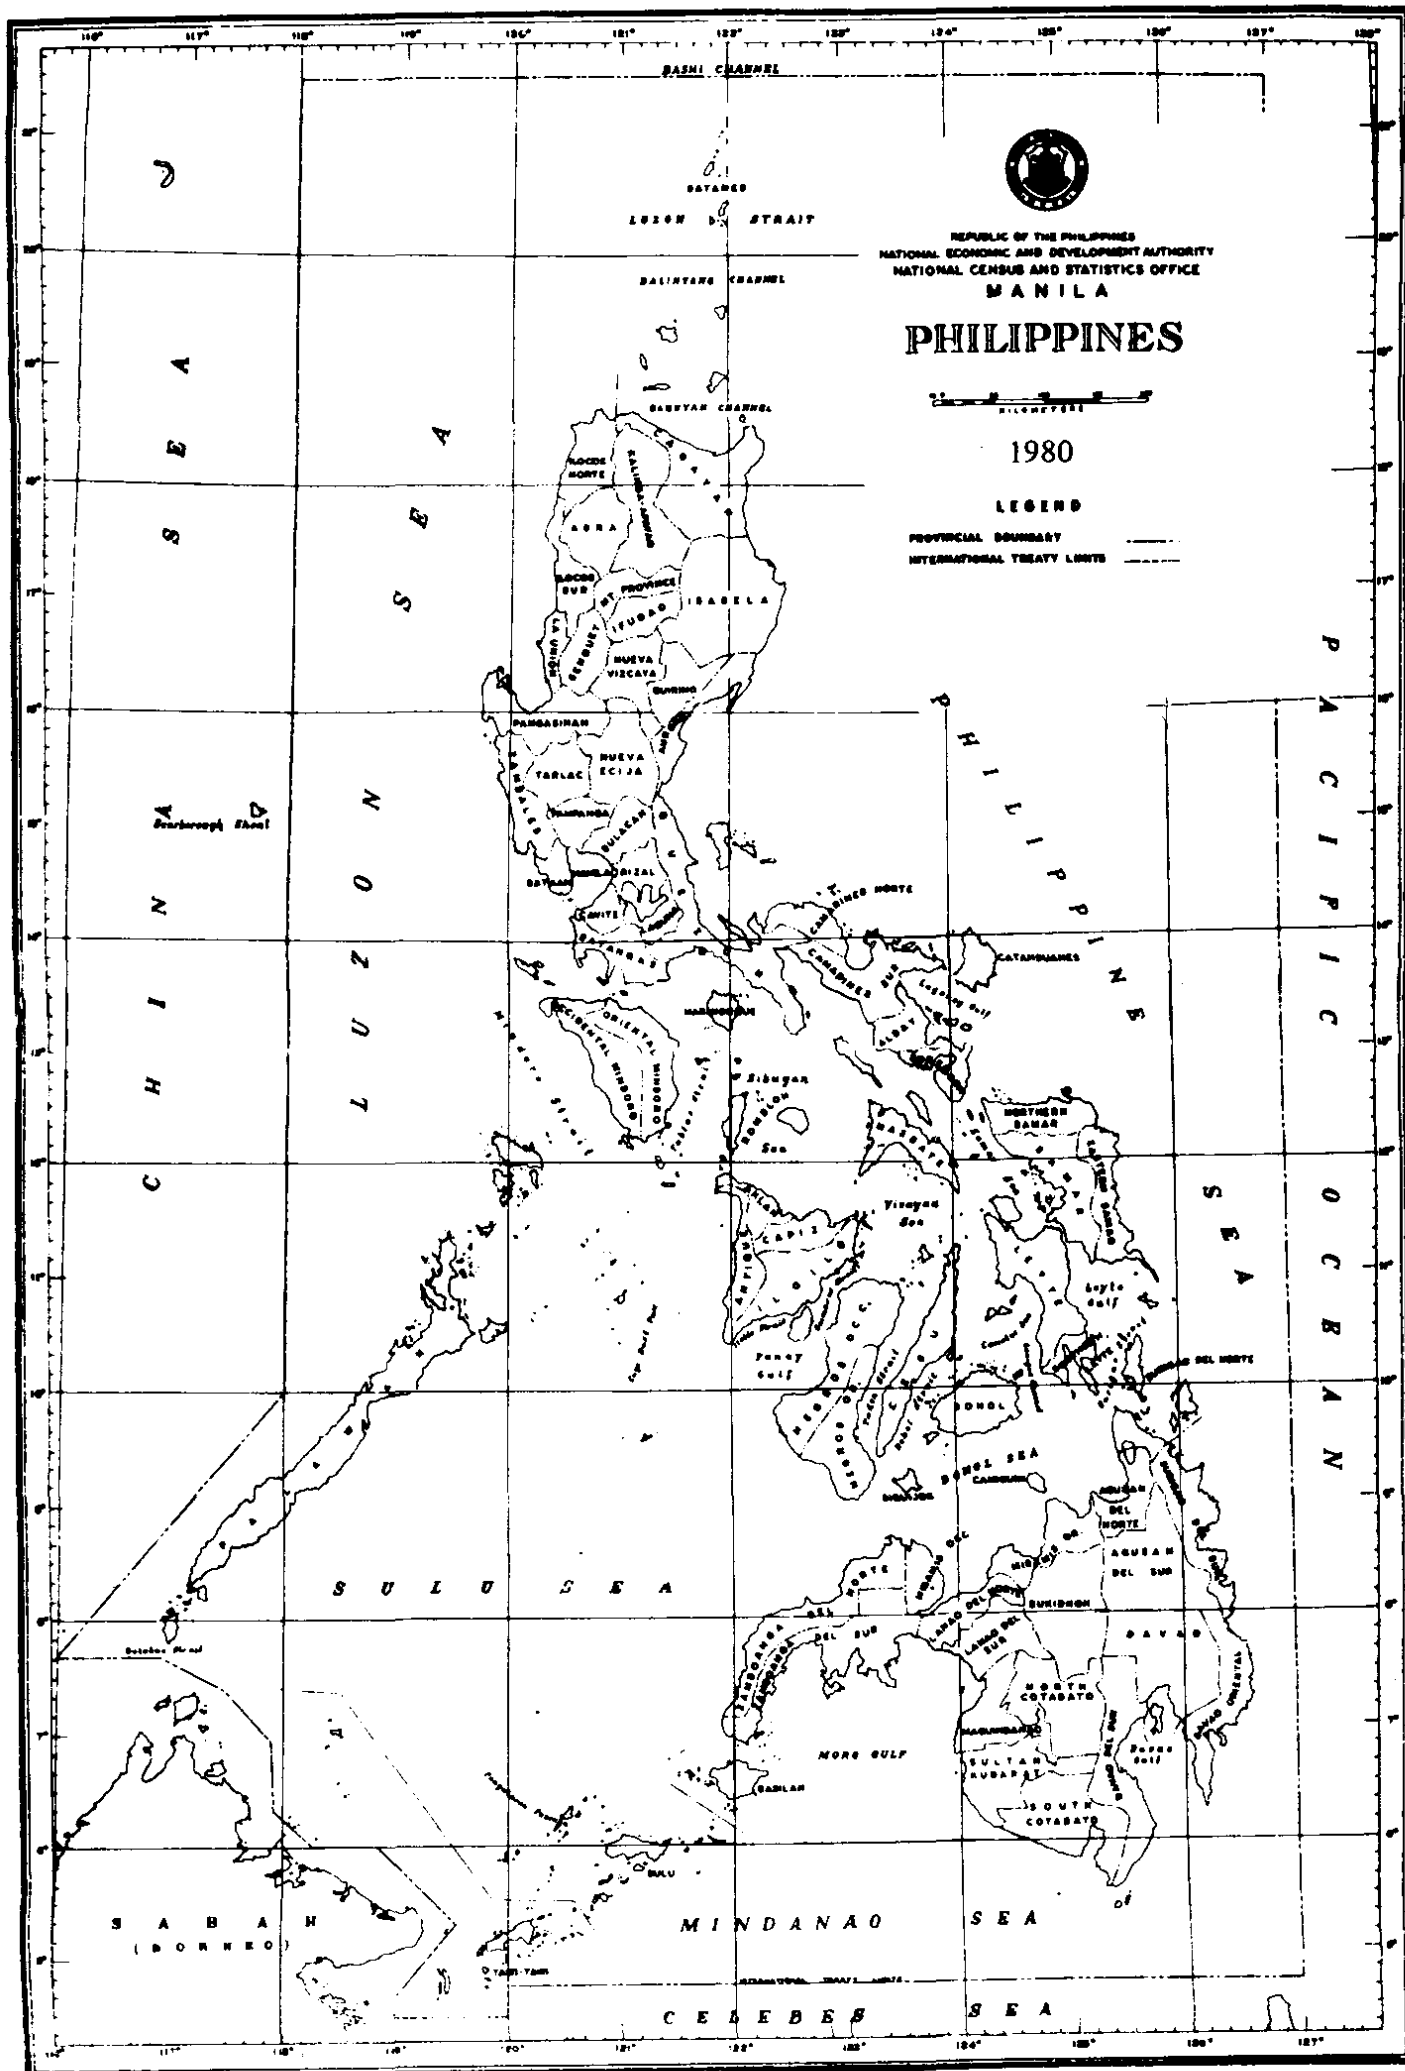

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

E	PH Form 4 – Collective Household Questionnaire	219

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, in lustry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every censal year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under “Others”.

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as “married” includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed, in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

- 1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
- 2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
- 3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

- 4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
- 5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

- 6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

- 7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
- 8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
- 9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

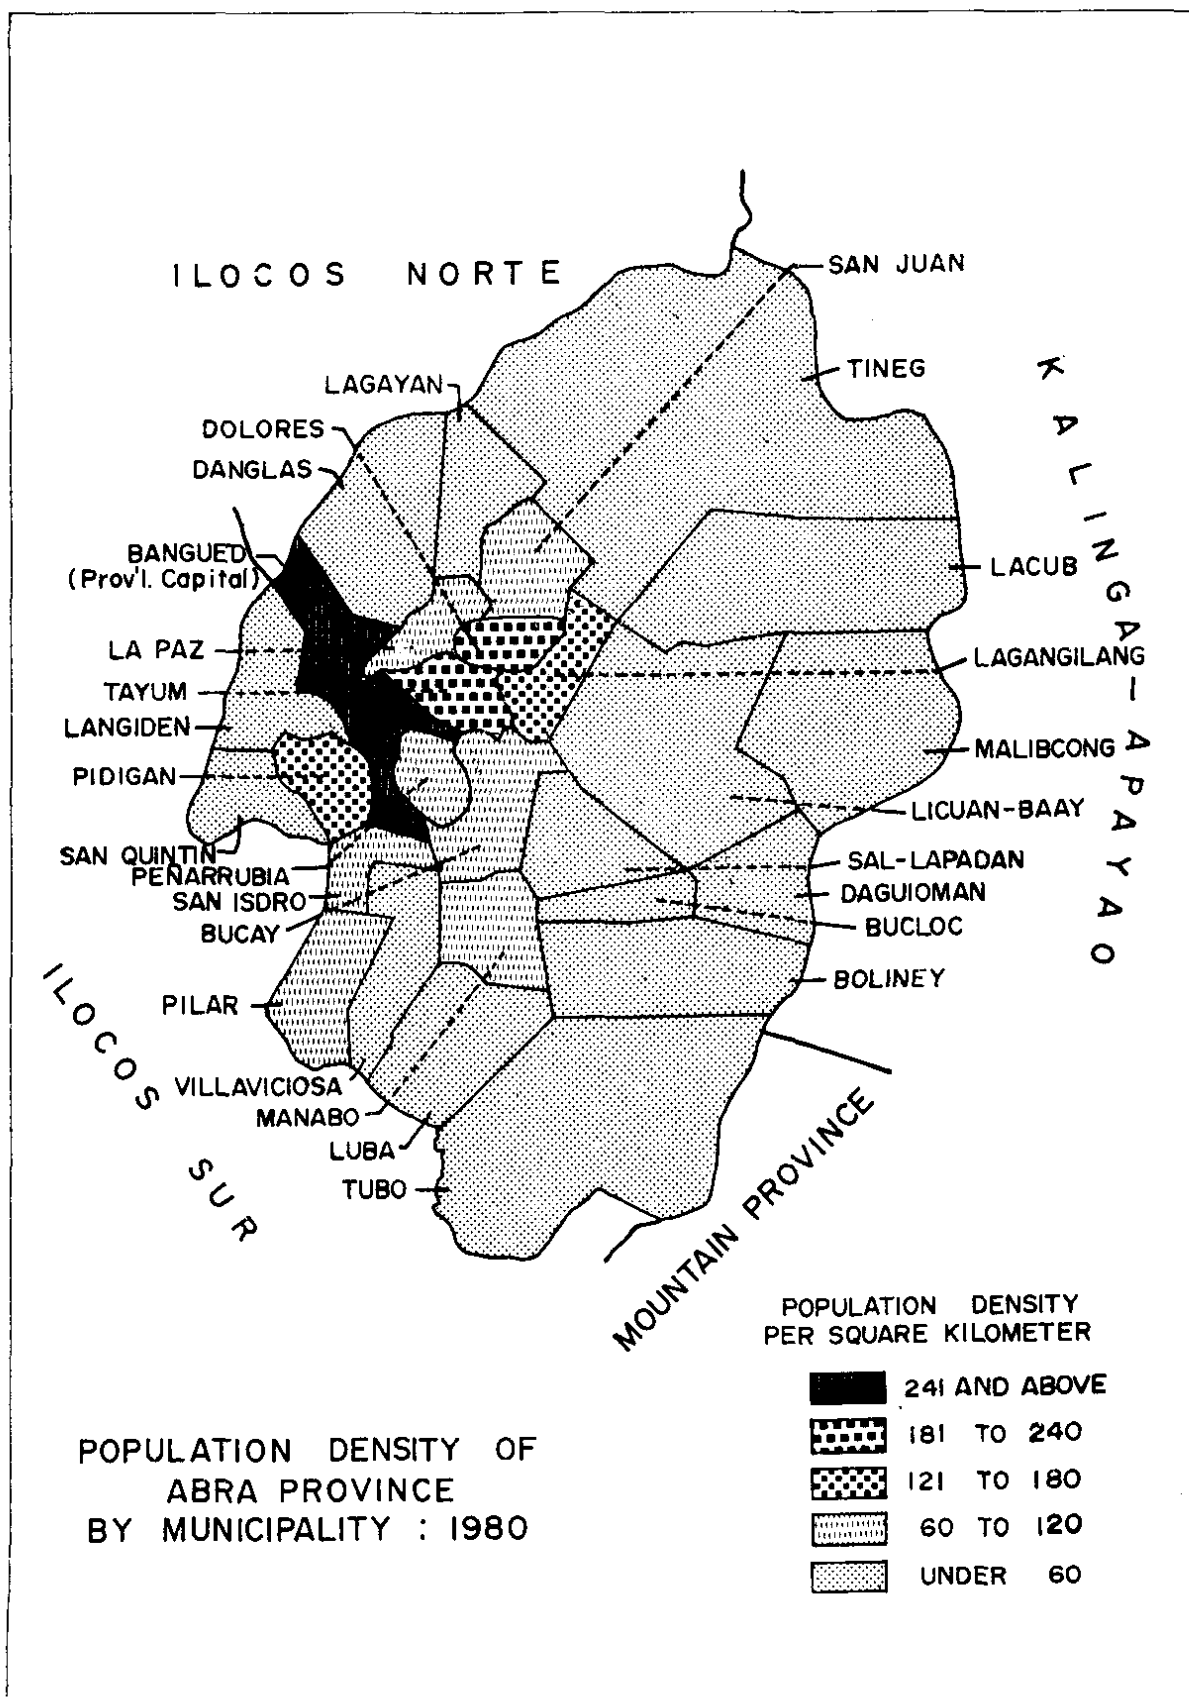

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

Abra: A Brief Analysis

With an area of 3,975.6 square kilometers or 1.3 percent of the whole land area of the country, the province of Abra nestles on the western side of the Cordillera in Luzon. Its deep valleys, wide plains and sloping hills are shut off by rugged mountains, except on the western portion where the Abra River flows towards the coastal plains of Ilocos Sur. Its provincial boundaries are defined by Ilocos Norte and Kalinga-Apayao on the north, Mountain Province and Ilocos Sur on the south and Kalinga-Apayao on the east.

Abra was created a politico-military province in 1846, prior to which it comprised part of the old Ilocos province and later of Ilocos Sur when Ilocos was divided into two provinces in 1818. Civil government was established in Abra on August 19, 1901, but in February 1905 it was re-annexed to Ilocos Sur. Abra remained a sub-province for twelve years, regaining its status as a province only after the passage of Act 2683 in March 1917. Since the 1970 Census, the province has had 22 municipalities and 5 municipal districts with Bangued as the provincial capital.

POPULATION

Abra's population on May 1, 1980 totalled 160,198, representing an increase of 13,188 or 8.97 percent since 1975. Annual geometric growth rate of the population during the 1975-1980 intercensal period average 1.73 percent, more than eight-fold the 0.21 percent growth rate achieved in 1970-1975. Nevertheless, the population density between 1975 and 1980 changed only slightly, from 37.0 to 40.3 inhabitants per square kilometer.

The population is still predominantly rural. The rural population increased from 82.75 percent to 83.27 percent, while the urban population decreased from 17.25 percent to 16.73 percent. The proportion of rural males and that of rural females to total population rose to 42.23 and 41.04 percent, respectively. In the urban areas are located 16.73 percent of the population. The percentage of urban males to total population (8.12%), unlike in the rural sector, is less than that of their partners (8.61%).

Table A shows the urban-rural and sex distribution of the population for 1970, 1975 and 1980:

A BRIEF ANALYSIS

**TABLE A — URBAN-RURAL POPULATION BY SEX,
ABRA: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	160,198	100.00	147,010	100.00	145,508	100.00
Male	80,657	50.35	74,493	50.67	71,890	49.41
Female	79,541	49.65	72,517	49.33	73,618	50.59
Urban	26,808	16.73	25,363	17.25	26,280	18.06
Male	13,014	8.12	12,530	8.52	12,584	8.65
Female	13,794	8.61	12,833	8.73	13,696	9.41
Rural	133,390	83.27	121,647	82.75	119,228	81.94
Male	67,643	42.23	61,963	42.15	59,306	40.76
Female	65,747	41.04	59,684	40.60	59,922	41.18

A BRIEF ANALYSIS

There were 80,657 males and 79,541 females in the population – a sex ratio of 101.40. More than just maintaining the 1975 excess of females to males, the sex ratio of the urban population dropped to 94.34. Although the males still outnumbered the females in the rural sector, the sex ratio, however, dropped from 103.82 in 1975 to 102.88 in 1980. In 1975 the overall sex ratio reached 102.72.

Figure 1 shows the 1980 proportion of males and of females, urban and rural, in five-year groups to the total population. As seen clearly in the diagram, the rural sector comes close to having a pyramid population structure which is characterized by declining percentages of males and females as the groups increase in age. Deviations from the pyramid configuration occur more frequently in the urban population.

AGE COMPOSITION

Changes in the population distribution by age from 1975 to 1980 parallel those during the 1970-1975 period but differ in degree. Children 14 years of age or younger decreased by 1.87 percentage points, a little more than the decline in 1970-1975, to 38.84 percent of the population. The proportion of persons of working age (15-64 years old), though failed to match its marked increase in 1970-1975, rose to 55.35 percent. A spurt growth to 5.81 percent is experienced by adults at least 65 years old. Thus the median age of the population increased from 18 years in 1975 to 20 years.

Shown below is the broad-age structure of the population since 1970:

**TABLE B – AGE COMPOSITION OF THE POPULATION,
ABRA: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>160,198</u>	<u>100.00</u>	<u>147,010</u>	<u>100.00</u>	<u>145,508</u>	<u>100.00</u>
0 – 14 years	62,222	38.84	59,841	40.71	61,717	42.41
15 – 64 years	88,670	55.35	79,770	54.26	76,625	52.66
65 years and over	9,306	5.81	7,399	5.03	7,166	4.93

The 1975-1980 rise in the proportion of the 15-64 years old group allowed the dependency ratio to vary by 3.62 from 84.29 to 80.67. Urban and rural dependency ratios approached each other. The urban population, on one hand, was composed of 37.79 percent, 0-14 years old; 54.92 percent, 15-64 and 7.29 percent, 65 and over for a dependency ratio of 82.09. On the other hand, the rural sector reached a ratio of 80.28 as 39.05 percent of its population were under 15 years old; 55.44 percent, 15-64 and 5.51 percent, 65 and over.

A BRIEF ANALYSIS

MARITAL STATUS

Exceeded only by never married persons in 1970 and 1975, married persons suddenly reversed the situation by totalling 49.06 percent of the total population 10 years old and above. Since 1970, the proportion of married persons had consistently increased, from 46.16 percent in 1970 to 46.54 percent in 1975. The proportion of the never married abruptly dropped by 3.66 percentage points during the recent intercensal period to 44.26 percent. The widowed and the divorced or separated both unexpectedly hiked to 6.00 percent and 0.58 percent, respectively. Those who did not bare their marital status made up 0.10 percent.

Of the males, 47.37 percent were single and 48.69 percent were married, and among the females, 41.15 percent were single and 49.42 percent, married. Females were more likely to lose their mates by death than males. Less than one-tenth (8.49%) of total females were widowed compared with 3.52 percent for the males. Divorced or separated males and females comprised 0.35 percent and 0.82 percent, respectively.

The next table classifies the population by sex and marital status in the last three censal years:

**TABLE C – POPULATION 10 YEARS OLD AND OVER
BY SEX AND MARITAL STATUS,
ABRA: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

More and more persons during the last five-year period attended school, reducing the proportion of people with no formal education to a little more than a tenth (10.03%) of all private household individuals 7 years of age and older. Those reaching only elementary school substantially diminished to 57.01 percent, an indication that the proportion of persons ending up with higher educational levels increased. Those who studied until high school went up to 21.85 percent, and persons continuing up to college but were still undergraduates, to 7.13 percent. Academic degree holders rose to 3.54 percent. Only 0.44 percent did not give their highest grade completed.

Of those having elementary training, 34.89 percent finished only any of the first three grades; 19.04 percent, the fourth grade; 13.40 percent, the fifth grade and 32.67 percent, the sixth or seventh grade. Majority of persons schooled until the secondary level did not go past the junior year (60.94%) and 39.06 percent stayed through the entire high school length. Over four-fifths of all college undergraduates (82.52%) attended at most the third year and 17.48 percent, at least the fourth year.

A BRIEF ANALYSIS

Table D shows the distribution of the private household population 7 years old and over by highest grade completed in 1975 and 1980:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, ABRA: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>129,012</u>	<u>100.00</u>	<u>118,588</u>	<u>100.00</u>
No grade completed	12,944	10.03	11,994	10.12
Elementary	73,556	57.01	74,310	62.66
High school	28,190	21.85	21,914	18.48
College	9,192	7.13	5,625	4.74
Academic degree holder	4,564	3.54	3,389	2.86
Not stated	566	0.44	1,356	1.14

**FIG. 3 – PRIVATE HOUSEHOLD POPULATION 7 YEARS
OLD AND OVER BY HIGHEST GRADE
COMPLETED, ABRA: 1980**

A BRIEF ANALYSIS

LITERACY

The rate of literacy for the private household population 10 years old and above stood at 81.57 percent. The increase was only minimal from 79.03 percent in 1970.

Higher literacy rate of 90.54 percent in urban areas compared to that in rural areas (79.70%) may be attributed to existence of more schools and greater accessibility in urban areas. Literacy rates of urban and rural male residents (92.34% and 82.37%, respectively) were consistently higher than their female counterparts (88.88% and 77.00%).

FIG. 4 – PERCENTAGE LITERACY OF PRIVATE HOUSEHOLD
POPULATION 10 YEARS OLD AND OVER BY SEX,
URBAN-RURAL, ABRA: 1980

A BRIEF ANALYSIS

LANGUAGE OR DIALECT

A variety of languages and dialects is reported generally spoken by the 29,599 households in the province, but either Ilocano or Tinggian/Itneg dominates every municipality.

On the whole, 73.65 percent of the total households generally speak Ilocano and 25.18 percent, Tinggian or Itneg. Both percentages of households that speak Ilocano and Tinggian or Itneg vary greatly between urban and rural areas. Specifically, 88.78 percent of all urban households compared with 70.60 percent among rural households speak Ilocano. Tinggian or Itneg is spoken in only 8.43 percent of the urban households as against 28.55 percent among those in rural areas.

GAINFUL OCCUPATION

There are 46,163 persons of the private household population at least 15 years of age with gainful work, higher by 10.73 percent than the 41,690 in 1975. Gainful employment is heavily dominated by men; barely 17.50 percent of all gainful workers are women.

A BRIEF ANALYSIS

The largest major gainful occupation group belong to agricultural, animal husbandry and forestry workers, fishermen and hunters who accounted for 72.13 percent of the total gainful employment, less 5.46 percentage points since 1975. The proportions of workers in all other gainful occupation groups increased over the past five years. Production and related workers, transport equipment operators, the group which emerged with the biggest gain, rose 2.01 percentage points to 8.89 percent. Professional, technical and related workers aggregated 6.62 percent. Service workers hiked to 4.39 percent; clerical and related workers, to 3.28 percent and sales workers, to 2.65 percent. Administrators, executives and managers rose to 0.53 percent, still the least as in 1975. Workers not classifiable by occupation reached 1.51 percent.

The next table presents the distribution of the working population 15 years old and over by major occupation group in the last two censal years:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP,
ABRA: 1975 AND 1980**

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>46,163</u>	<u>100.00</u>	<u>41,690</u>	<u>100.00</u>
Professional, technical and related workers	3,058	6.62	2,452	5.88
Administrative, executive and managerial workers	244	0.53	210	0.50
Clerical and related workers	1,514	3.28	981	2.35
Sales workers	1,221	2.65	1,029	2.47
Service workers	2,026	4.39	1,462	3.51
Agricultural, animal husbandry and forestry workers, fish- ermen and hunters	33,297	72.13	32,345	77.59
Production and related workers, transport equipment opera- tors and laborers	4,104	8.89	2,869	6.88
Workers not classifiable by occupation	699	1.51	342	0.82

INDUSTRY

Agriculture, fishery and forestry – the single largest major industry group – account for 73.43 percent of the total gainful workers. Producers of agricultural crops heavily populated the group, making up 96.33 percent. Merely 1.72 percent are in forestry and 1.02 percent, in fishery. The industry group involving community, social and personal

A BRIEF ANALYSIS

services provides jobs to 12.65 percent. Its workers tend to crowd in three areas: education services (35.79%), public administration and defense (27.59%) and personal and household services (20.50%). Manufacturing employs 3.85 percent with the workers being concentrated in the textile, wearing apparel and leather division (39.37%), paper and paper products, printing and publishing sector (31.95%), and food, beverage and tobacco section (12.49%). Wholesale and retail trade contributes 2.83 percent of all gainful workers; transportation, storage and communication, 2.58 percent; construction, 2.48 percent; financing, insurance, real estate and business services, 1.07 percent; electricity, gas and water, 0.31 percent and mining and quarrying, 0.02 percent.

MIGRATION

A large majority of the private household population 5 years of age and older – 96.43 percent of all the males and 95.81 percent of the females – resided in the same municipality where they had lived in 1975.

A BRIEF ANALYSIS

Those who had a different place of residence on May 1, 1980 were largely migrants from other provinces — they constituted 1.87 percent of all persons at least 5 years old — followed closely by transferees from another municipality of Abra at 1.79 percent. Emigrants from a foreign country were the least (0.22%). Movements within the province and from another province, especially in the former, involved more females than males. The great bulk of both all male movers and female movers inside the province and from abroad and solely the female migrants from another province settled in rural areas.

TYPE OF BUILDING

From 96.27 percent in 1970, the proportion of households which occupied single houses climbed yet higher to 98.26 percent in 1980. More than four-fifths of these households are located in the rural areas. Improvised houses shelter barely 0.88 percent of the total households — down by more than two percentage points since 1970 — most of which are found in rural areas. Households living in duplexes of which 54.12 percent are in the rural areas, total 0.58 percent after a minimal increase. Commercial/industrial/agricultural structures shelter 0.15 percent of the households; apartment/accesoria/row houses/etc., 0.10 percent and institutional edifices such as hospital, convent, etc., 0.03 percent. All households in the last three types of building are located in urban areas.

The following table gives the distribution of households in the different types of building in the last 10 years:

**TABLE F — NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, ABRA: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>29,599</u>	<u>100.00</u>	<u>24,777</u>	<u>100.00</u>
Single house	29,085	98.26	23,853	96.27
Duplex	170	0.58	111	0.45
Apartment/accesoria/condominium/row house/etc.	30	0.10	24	0.10
Improvised (barong-barong)	260	0.88	759	3.06
Commercial/industrial/agricultural	44	0.15	27	0.11
Other housing unit: natural shelter, boat, etc.	0	—	0	—
Hotel, lodging house, dormitory, etc.	0	—	0	—
Institutional (hospital, convent, school dormitory, etc.)	10	0.03	3	0.01
Other collective living quarters (military camp, etc.)	0	—	0	—

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

Nearly all households (94.05%) are owners of the dwelling units they are occupying; 3.48 percent, free-renters; 2.38 percent, tenant/lessee and 0.09 percent, subtenant/sublessee (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Approximately 7 out of every 10 households (69.36%) inhabit dwelling units with galvanized iron roofs, followed by those in cogon/nipa-roofed units (28.78%). Dwelling units with roofs made of tile/concrete/brick/stone are occupied by 0.29 percent of the total households; of makeshift/salvaged materials, 0.27 percent; of asbestos, 0.03 percent and of other materials such as anahaw, 1.27 percent.

Bamboo/sawali walls form the exteriors of dwelling units of 62.99 percent of the households. Units with walls of mixed constituents, tile/concrete/brick/stone and wood/plywood, are occupied by 17.50 percent; wood/plywood, 12.57 percent; the tile/concrete/brick/stone, 3.89 percent; cogon/nipa, 1.14 percent; other materials (anahaw, etc.), 0.82 percent; galvanized iron/aluminum, 0.54 percent; makeshift/salvaged materials, 0.39 percent and asbestos, 0.16 percent (Table 2).

YEAR BUILT

Newly built dwelling units (those erected between 1976 and 1980) protect the largest percentage of the households (30.97%). Less than one-fifth of the households occupy units constructed in 1971-1975; 23.29 percent, 1961-1970; 15.40 percent, 1951-1960; 6.67 percent, 1942-1950 and 4.35 percent, 1941 and earlier (Table 2).

FLOOR AREA OF DWELLING UNIT

Over ninety percent of the households occupy dwelling units of less than 49 square meters in floor area; 63.22 percent are sheltered in units under 30 square meters and 27.44 percent, 30-49 square meters. Barely 9.34 percent live in roomier dwelling units, as follows: 5.03 percent, 50-69 square meters; 2.53 percent, 70-99 square meters; 0.95 percent, 100-149 square meters; 0.41 percent, 150-199; 0.22 percent, 200-249 square meters; 0.10 percent, 250-299 square meters and 0.10 percent, more than 300 square meters (Table 3).

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

An overwhelming majority (92.75%) of the 27,839 households who own the dwelling units they occupy likewise own the land where their structures stand. Merely 2.17 percent are lessees or sublessees; 2.06 percent, farm lessees/agricultural tenants of landowner and 0.88 percent, of other legal tenure. Those with no tenure (squatters) make up 2.14 percent (Table 4).

KIND OF LIGHTING FACILITIES

Kerosene and electricity, used respectively by 52.54 percent and 40.96 percent of all households, are the most common kinds of lighting facilities. Each predominates in separate areas — kerosene in the rural sector (58.44%) and electricity in the urban areas (75.51%). Liquefied petroleum gas (LPG) fuel the lights of 1.78 percent of the households; oil, only 0.07 percent and other kinds, 4.65 percent (Table 5).

A BRIEF ANALYSIS

SOURCE AND USE OF WATER SUPPLY

With only a slight difference in ranks and degrees, the six top sources of water for both drinking and kitchen uses are the same – their combine users for each purpose comprise more than seventy percent of the households. About a fifth (19.60%) of all households get water to drink from public faucet, community water system; 14.71 percent, from faucet inside house/yard, community water system; 14.47 percent, from public tubed/piped deep well; 8.38 percent, from unimproved dug well; 7.30 percent, from improved dug well and 7.44 percent from unimproved spring. For kitchen utility, 19.82 percent use water from public faucet, community water system; 14.39 percent, public tubed/piped deep well; 14.27 percent, faucet inside house/yard, community water system; 8.50 percent, unimproved dug well; 7.34 percent, unimproved spring and 7.24, improved dug well. The lake, river, stream, irrigation and others provide water for washing clothes to 47.27 percent of the total households, followed by faucet inside house/yard, community water system, 10.53 percent; public faucet, community water system, 7.34 percent and public tubed/piped deep well, 7.10 percent (Table 6).

COOKING FUEL

A high 92.22 percent of the total households cook with wood or charcoal – 94.77 percent among rural households and 79.50 percent of urban households; 3.72 percent, liquefied petroleum gas (LPG); 3.33 percent, kerosene; 0.55 percent, electricity and 0.18 percent, other kinds of fuel.

TOILET FACILITIES

Closed pit users (51.84%) and open pit users (21.57%) constitute about three-quarters of the total households. They are mainly concentrated in the rural areas where nearly 8 out of every 10 households have pits as toilets – 54.65 percent, closed and 24.43 percent, open. Only 18.38 percent use water-sealed toilets (11.52%, sewer/septic tank and 6.86%, other depository). The urban sector, apparently on the way to switching to modern toilets has over half of its households (52.43%) with the water-sealed. The use of majority of the water-sealed toilets as a whole is exclusive for the household. An insignificant 0.19 percent, all rural-based, resort to other toilet facilities such as the pail system. Many households (8.02%) still lack toilet facilities, mostly in the rural areas.

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Far from being extensively owned, the radio is found only in 64.06 percent of all households. Approximately six percent (5.90%) own refrigerators or freezers and 2.94 percent, television sets. The urban households are more likely to have these appliances than the rural households. More than three-fourths (78.19%) of the urban households own radios; 20.21 percent, refrigerators or freezers and 10.07 percent, television sets. The corresponding percentages for the rural households are 61.22 percent, 3.02 percent and 1.15 percent.

* MUNICIPAL DISTRICT

1/ INCLUDES FORMER MUNICIPAL DISTRICT OF DANAC IN 1939 AND 1948; SETTLEMENT IN 1918.

2/ CONVERTED INTO A MUNICIPALITY JULY 18, 1967 UNDER E. O. NO. 77.

3/ INCLUDES FORMER MUNICIPAL DISTRICT OF BUNEG IN 1939 AND 1948.

4/ CONVERTED INTO A MUNICIPALITY JUNE 23, 1969 UNDER E. O. NO. 184; INCLUDES FORMER MUNICIPAL DISTRICT OF BA-RY IN 1939 AND 1948.

5/ CONVERTED INTO A MUNICIPALITY JUNE 23, 1969 UNDER E. O. NO. 184; INCLUDES FORMER MUNICIPAL DISTRICTS OF BANGILO AND MATARAGAN IN 1939.

6/ CREATED MUNICIPALITY JANUARY 1, 1964 UNDER E. O. NO. 298; TAKEN FROM PILAR.

7/ PART OF BUCAY IN 1918.

8/ INCLUDES FORMER MUNICIPAL DISTRICTS OF ALAOA, ANAYAN, CAGANAYAN, LANEC AND NAGLIBACAN IN 1939 AND 1948; SETTLEMENT IN 1918.

9/ INCLUDES FORMER MUNICIPAL DISTRICT OF TIEMO IN 1939 AND 1948; MUNICIPAL DISTRICT IN 1960; CONVERTED INTO A REGULAR MUNICIPALITY JANUARY 1, 1967 UNDER E. O. NO. 164.

10/ INCLUDES UNDISTRIBUTED NON-CHRISTIAN POPULATION OF 14,037.

11/ INCLUDES FORMER MUNICIPALITY OF SAN JOSE.

12/ INCLUDES FORMER MUNICIPALITY OF SAN GREGORIO.

13/ INCLUDES FORMER MUNICIPALITY OF SAN ANTONIO.

14/ NON-CHRISTIAN POPULATION.

HOUSING CENSUS QUESTIONS

(Encircle Code or Enter Appropriate Code If Required.)

12. 21

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

Transcribe
encircled codes
here.

H-1 What type is this building/house?

- 1 Single House
- 2 Duplex
- 3 Apartment/Accesoria/Condominium/Row house/etc.
- 4 Improved (baroque/harong)
- 5 Commercial/Industrial/Agricultural
- 6 Other housing unit: natural shelter, boat, etc.
- 7 Hotel, lodging house, dormitory, etc.
- 8 Institutional (hospital/convent/school dormitory/penal institution)
- 9 Other collective living quarters (refrigerator camp, logging camp, military camp, etc.)

H-2 What construction material is the roof made of?

- 1 Galvanized iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Asbestos
- 4 Cogon/Nipa
- 5 Make-shift/Salvaged Materials
- 6 Other (anahaw, etc.)

H-3 What construction material are the outer walls made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Wood/Plywood
- 4 Mixed Tile/Concrete/Brick/Stone and Wood/Plywood
- 5 Asbestos
- 6 Bamboo/Sawali
- 7 Cogon/Nipa
- 8 Make-shift/Salvaged Materials
- 9 Other (anahaw, etc.)

H-4 When was this building/house built?

- 1 1980
- 2 1979
- 3 1978
- 4 1977
- 5 1976
- 6 1971 - 1975
- 7 1961 - 1970
- 8 1951 - 1960
- 9 1942 - 1950
- 0 1941 or earlier

H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)

H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, storeroom, passageway)?

- 1 Room
- 2 Rooms
- 3 Rooms
- 4 Rooms
- 5 Rooms
- 6 Rooms
- 7 Rooms
- 8 Rooms
- or more

H-6 What is the floor area of this dwelling unit in square meters?

- 1 Less than 30 sq. meter
- 2 30-49 sq. meters
- 3 50-69 sq. meters
- 4 70-99 sq. meters
- 5 100-149 sq. meters
- 6 150-199 sq. meters
- 7 200-249 sq. meters
- 8 250-299 sq. meters
- 9 300 sq. meters & over

H-7 to H-13 should be answered by all sample households.

H-7 How does this household occupy this dwelling unit?

- 1 Owner
- 2 Tenant/Lessee
- 3 Sub-tenant/sublessee
- 4 Rent-free

H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?

- 1 Owner
- 2 Lessee or sublessee
- 3 Farm lessee/agricultural tenant of landowner
- 4 Other legal tenure
- 5 No tenure (squatter, etc.)
- 6 Not applicable

H-9 What kind of lighting do you use?

- 1 Electricity
- 2 Kerosene
- 3 Liquefied Petroleum Gas (LPG)
- 4 Oil (vegetable, animal)
- 5 Other

H-10 What is the main source of your water supply - (Encircle only one for each use.)

For Drinking?	For Kitchen Use?	For Washing Clothes?	Source of Water Supply
01	01	01	Faucet inside house/yard, Community Water System
02	02	02	Faucet, Public, Community Water System
03	03	03	Faucet, Other, Community Water System
04	04	04	Tubed/ripped deep well, At least 5 of 20 ft. Open Use
05	05	05	Tubed/ripped deep well, 30 meters deep
06	06	06	Public Tubed/ripped deep well, 30 meters deep
07	07	07	Other Tubed/ripped shallow well, Own Use
08	08	08	Tubed/ripped shallow well, Public
09	09	09	Tubed/ripped shallow well, Other
10	10	10	Dug well, improved (covered and no seepage from side)
11	11	11	Dug well, Other
12	12	12	Spring, improved (with tube/pipe outlet)
13	13	13	Spring, Other
14	14	14	Rain
15	15	15	Lake, river, stream, irrigation, etc.

H-11 What kind of fuel do you use most of the time for cooking?

- 1 Electricity
- 2 Kerosene
- 3 Liquefied Petroleum Gas (LPG)
- 4 Wood, charcoal
- 5 Other

H-12 What kind of toilet facilities do you use?

- 1 Water-sealed, sewer/septic tank, used exclusively by household
- 2 Water-sealed, sewer/septic tank, shared with other households
- 3 Water-sealed, other depository, used exclusively by the household
- 4 Water-sealed, other depository, shared with other households
- 5 Closed pit (antipolo, etc.)
- 6 Open pit
- 7 Other (pail system, etc.)
- 8 None

H-13 Do you have these appliances in working condition?

- | | | |
|-----|----|---------------------------|
| YES | NO | a. Radio |
| 39 | 1 | 2 b. TV |
| 40 | 1 | 2 c. Refrigerator/Freezer |
| 41 | 1 | 2 |

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)

Title _____ Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject to assignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosy or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boy's Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (walled cities).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, semitarians, etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy); PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHRIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employee who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels whose own families live in the Philippines at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland, coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Foreign citizens working and living inside the camps.
